We train on several types of Forklifts, Loaders and Aerial Lifts (Boom and Scissor).

Our training and certification is regulatory compliant with the most current standards and regulations. Courses are provided either at our sites or on workplaces all over the nation. Our wide variety of safety programs help to guarantee effective and safe workplaces.

Reasons to Train the Trainer

The best option for training staff is sometimes engaging the services of a third party organization to be able to perform the training and certification. There are nevertheless many good reasons to send a few of your workers to Train the Trainer programs. Your company can benefit by making the most out of your investment. Teaching an existing staff person to train other workers is less expensive as opposed to hiring somebody new. Companies should avoid expecting people to take on trainer responsibilities on top of their existing duties. The chosen trainer has to be relieved of some of their duties to be able to avoid trainer exhaustion.

Developing training resources internally helps to empower your company, encourage staff to be self-reliant and increase its resources. With an in-house trainer, other staff members may feel more comfortable learning new skills than they would with someone new. By internally training, new workers can quickly be trained and brought up to speed on the machinery in case of employees turnover.
